In 1912, the Japanese presented a gift of 3000 cherry trees to the United States to promote a spirit of friendship between the two countries. First Lady Helen Herron Taft and Viscountess Chinda, wife of the Japanese ambassador, planted the first two trees, which are still standing, in a simple ceremony. Over the years the cycle of giving came full circle when cuttings from the trees were returned to Japan in order to replace those that were destroyed in a flood. Today, the commemoration of the gift has grown into the **National Cherry Blossom Festival** scheduled to coincide with the blooming of the trees. The festival is a combination of cultural, community, and sporting events that include a pageant and a **parade** with marching bands from across the nation and celebrity guest.
